Poland*

TO WHOM IT MAY CONCERN.

Hereby we confirm our full satisfaction with the Chester Molecular epoxy materials used onboard our vessels- supplied by the LEERPOL Company. The products meet all our requirements and we recommend it among the shipowners / shipmanagements. Very high product quality combined with attractive cost and smooth delivery to the vessel, makes that we used these products on our fleet.

**Kind regards**

Karol Chachula  
Technical Superintendent.
