PRODUCT DESCRIPTION

Ultra Fast Degreaser F-6 is a degreasing and washing agent based on hydrocarbon compounds. It contains specially matched surfactants. It does not emit toxic vapours and has a delicate smell. It contains no water.

TYPICAL USES

It is a universal preparation for degreasing steel and ceramic surfaces.

Recommended for surface preparation prior to using glues, Chester two-component epoxy composites, paints and varnishes.

It efficiently cleans and degreases brake linings and clutch facings.

PRODUCT PROPERTIES

Physical form	clear fluid
Colour	colourless
Functional test	95%
Density	0.75 g/cm ³
Viscosity at 20°C	0.44 mPa s
Spontaneous ignition temperature	380°C
Boiling point	50°C

OTHER INFORMATION

Storage

The product should be stored in the original packaging.

The storage life of the product amounts to 24 months.

The product is available in aerosol containers.

Method of application

It should be applied by spraying onto a pre-cleaned surface. Wait until it has evaporated. In the case of a thick layer of dirt, rub the surface using cleaning rags and repeat the operation.
