

FAST CLEANER F-7Product Development Department
December 2004**PRODUCT DESCRIPTION**

Fast Cleaner F-7 is an aliphatic solvent-based cleaning agent. It contains specially matched surfactants. It removes grease, oil and other industrial contaminants. It does not emit toxic vapours and has a delicate smell. It contains no water. When dried, it provides temporary corrosion protection to steel surfaces.

TYPICAL USES

It is a universal cleaning and degreasing preparation. It is intended for the cleaning and degreasing of machine parts, components of internal combustion engines and mechanical gear-boxes, and bearings. It can be used for surface preparation prior to using two-component epoxy composites. It efficiently cleans and degreases brake linings and clutch facings. Recommended for cleaning rubber surfaces prior to applying Chester polyurethane elastomers.

PRODUCT PROPERTIES

Physical form	clear fluid
Colour	colourless
Functional test	96%
Density	0.76 g/cm ³
pH	7.4
Kinematic viscosity at w 25°C	0.75 mm ² /s
Evaporation rate (ASTM D 3539, nBuAc=1)	0.6
Wettability	7 seconds
Surface tension	23 mN/m
Spontaneous ignition temperature	>220°C
Index of refraction	1.416

OTHER INFORMATION**Storage**

The product should be stored in the original packaging. The storage life of the product amounts to 36 months.

Method of application

The preparation can be used for immersion washing in tanks and applied by brush, sponge or spraying.
