

FAST DEGREASER F-8

Product Development Department
January 2006

PRODUCT DESCRIPTION

Fast Degreaser F-8 is a acetone-based degreasing and washing agent. It contains specially matched surfactants. It does not emit toxic vapours and has a delicate smell. It contains no water.

TYPICAL USES

It is a universal preparation for degreasing of steel surfaces.

Recommended for surface preparation prior to using glues and Chester two-component epoxy composites.

PRODUCT PROPERTIES

Physical form	clear fluid
Colour	colourless
Functional test	94%
Density	0.80 g/cm ³
Viscosity at w 20°C	0.37 mm ² /s
Boiling point	>57°C
Spontaneous ignition temperature	>220°C
Index of refraction	1.3662

OTHER INFORMATION

Storage

The product should be stored in the original packaging.

The storage life of the product amounts to 36 months.

The product is available in aerosol containers.

Method of application

It should be applied by spraying onto a pre-cleaned surface. Wait until it has evaporated. In the case of a thick layer of dirt, rub the surface using clean rags and repeat the operation.
